

Customer Analytic Pro (for Magento 2)

Installation Guide

To install Customer Analytic follow next steps

1. Download Extension package
2. Extract files from the archive
3. To ensure that caching won't make issues during installation process please turn cache off **Cache Management page: System > Cache Management**
4. Run the command line - `php bin/magento cache:clean`
5. Navigate your store root folder in SSH console - `cd path_to_the_store_root_folder`
Run the command line - `bin/magento module:enable OnlineCustomers`
6. Run the command line setup module in Magento 2 - `php bin/magento setup:upgrade`
7. Run the command line deploy static files - `php bin/magento setup:static-content:deploy`
